About Us

Baraka Roses is a leading producer and exporter of premium roses in Kenya. We are a family business with a rich heritage of commercial farming dating back to the 1960s.

In 2011 we entered the floriculture industry and the company has successfully grown to 38 hectares offering a selection of 24 T-hybrids and intermediate rose varieties.

We attribute this growth to a dedicated professional team, and commitment to producing quality products.

Athena Pink

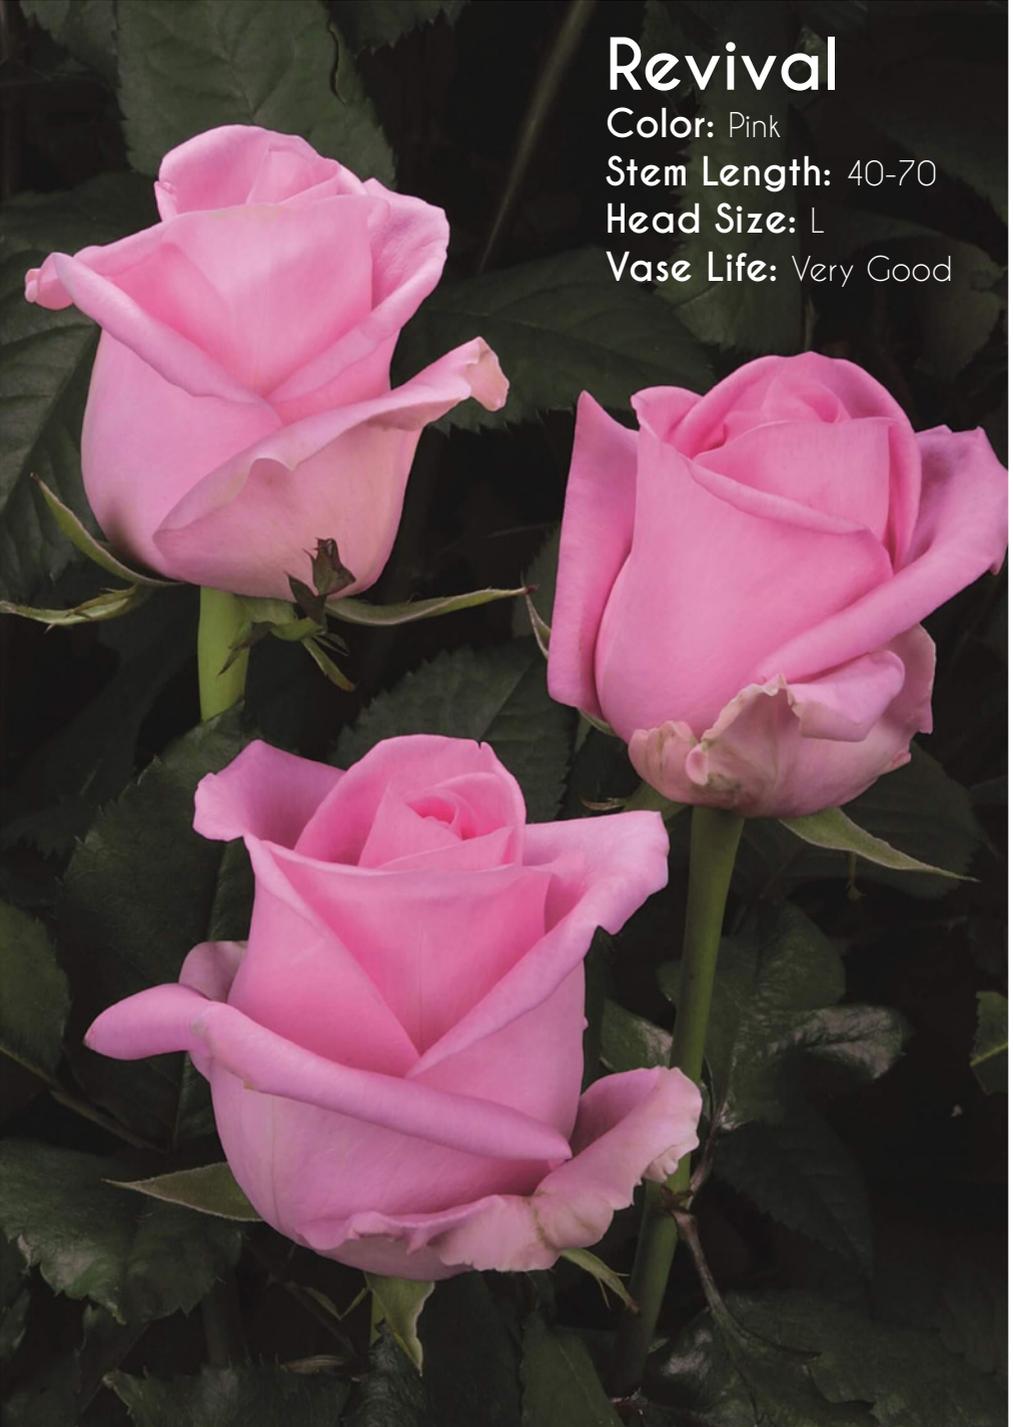

Color: Pink

Stem Length: 50-70

Head Size: ML

Vase Life: Very Good

A photograph of three vibrant pink roses in full bloom, set against a dark, almost black background. The roses are arranged in a triangular pattern: one in the upper left, one in the upper right, and one in the lower center. The petals are a rich, uniform pink color with a slight gradient from the center outwards. The leaves are dark green and serrated, providing a stark contrast to the bright pink of the flowers. The lighting is soft, highlighting the texture of the petals and the green of the stems and leaves.

Revival

Color: Pink

Stem Length: 40-70

Head Size: L
